

AIM TECHNICAL BULLETIN

Bulletin Number: 08242009-005

Please note: SPECIAL COLORS V. STANDARD COLOR SELECTION

AIM, INC. will provide special colors other than those listed on our color chart. In order to avoid an up-charge the following shall apply:

- (1) Less than a minimum of 10,000 pounds or approximately 9-10M S.F. may incur an added cost.
- (2) Colors requiring clear coat finish will require an additional cost.
- (3) Colors that consist of METALLIC finish will require an additional cost.
- (4) Colors that exceed our Mil Finish thickness shall be at an additional fee.
- (5) Colors that require special gloss finish **MAY** be an additional cost.

AIM, INC. provides colors that meet ALL LEED SRI requirements, relative to our AIM INC COLOR CHART, P3000. The designer should note that color selection other than listed **MAY NOT** meet Solar Reflectance Indexes as called for under LEED and therefore should be researched prior to specifying.

Our colors are KYNAR 70% PVDF, Fluorpon® VALSPAR providing the best finish and performance warranty within the industry. Color selection other than KYNAR may not meet the LEED requirement. Color selection should be researched prior to selection.
