

AIM TECHNICAL BULLETIN

Bulletin Number: 08192009-001

Please note: A typo on our soffit panel literature and on our flush wall panel literature reads incorrect. The minimum length for all soffit panels and flush wall panels are as follows:

- * Minimum Length for Non-perforated is 6' 5"
- * Minimum Length for Perforated is 4'

Orders for less than these lengths cannot be fabricated as stated above. Field modifications will be the responsibility of the installing contractor.
